

Bristol Classic car show 22nd-23rd June.

A fine display of Heritage “Junior” stock cars charting the sport through the “golden era” in front of a great audience at this year’s Bristol Classic car show.

Mr Roy Clarke and Johnny Painter had organized an impressive display of BriSCA Heritage “Junior” stock cars. Joining Roy and Johnny for the weekend was Alan Humphrey, and between them manned the display over the entire weekend talking to many visitors including a number of former oval drivers.

As illustrated below the display charted the progression from the full-bodied cars of the early '60s through the lowered and smaller bodied cars of the mid-60s to the cut'n'shut specials of the later years.

The display contained many a replica from that Golden era of Formula Two Stock car racing.

**163 Roy Goodman’s Pop’ replica.
716 Roy Clarke Y Type replica.**

The 689 Johnny Marquand Topolino replica.

**728 Graham Bunter’s replica
of his first ever car.**

Interest was high and plenty of fixture lists were handed out during the weekend which should see a lot of extra spectators at Taunton (Smeatharpe raceway), on the 9th July when the formula supports the annual WCQR for the FTOOZ, which interestingly enough forms the annual West Country Tour for the Heritage stock car formula.

All in all a great display which the organizers were very happy to have in attendance. Already plans are being made for next year's (2020) visit to this popular show.
